

CO-OP FEDERATION
OF AUSTRALIA
CANBERRA
SECRETARIAT:

Warrnambool Seminar: It was resolved that the brochures and the programme pro forma for the meeting on the 3rd November be forwarded as soon as possible to enable the organiser to finalise matters as soon as possible.

Long discussion took place on the raising of finance to support the transfer of the Secretariat to Canberra and some reservations were held as to regard the future financing after the initial two year period. It was disappointing to realise that the brochure which was forwarded out to the major co-operatives in the State had not been successful in gaining financial support for the project and whilst it was felt that certain amount of financial support would be forthcoming from Victorian co-operatives, that there was an area of doubt as to the exact amount of finance which could be guaranteed.

Questions were asked as to how the Secretariat in Canberra would operate and exactly what would the lines of communications be between the Canberra office and individual co-operatives wishing to use the facilities. One feeling was that many of the big co-operatives already have their contacts and liaison in Canberra and therefore the proposed move would not be as attractive to them as the smaller organisations but without the support of the larger co-operatives, sufficient finance would not be available to make the project successful.
